LUXUL

The Best Choice for Your Smart Home Network

With the dramatic increase in everyday connected devices, having a powerful network that manages the flow of audio, video, and data has become critical. With that in mind, Luxul:

- Is engineered specifically to support smart home technology networks that smoothly stream video for entertainment and security; audio for pitch-perfect sound; and accurate data for thermostats, shades, and lighting control.
- Is built for professional installers who know how to configure and optimize networks.
- Provides a network that can handle the everyday demand on bandwidth and is built with the horsepower to run today's technology and beyond.
- Wireless coverage everywhere you need it, with the ability to seemlessly move your device between Access Points without dropping off the network.

Warranty
Luxul offers free software updates plus a three-year hardware warranty on all Luxul network products when the network components are purchased from and installed by an Authorized Luxul Dealer.

Internet protection for your home buyers

Provide the added benefit of content management to your home buyers with Router Limits, built-in to Luxul Epic routers. With Router Limits, home owners are able to set boundaries on what websites are off limits, what times the Internet should be available, and track browsing history.

routerLimits

Manage Screen Time
Set Internet access schedules that fit the needs of each person. For example, filter social media for employees during the workday, or shut off the kids' access to the Internet completely during dinner and at bedtime.

Filter Content
An extensive library of filters include categories like Games, Social Media, and Offensive Content, as well as popular sites and apps like Facebook, Netflix, and Snapchat. Filters can be customized to your exact needs.

Track Browsing History
View web use and browsing history data right at your fingertips. Now you can see what's happening on your network, even when you're not there.
